PROFESSIONAL SUMMARY

Software Engineering student with 2+ years of mobile application development experience using Kotlin, Java, and modern frameworks. Passionate about building scalable Android applications and improving user experience through optimized design and performance.

EDUCATION

Jaypee University of Engineering and Technology <i>Bachelor of Technology in Computer Science Engineering</i>	July 2023 – Present Guna, MP
St. Xavier's Senior Secondary School <i>Higher Secondary Certificate (CBSE)</i>	2022 India

EXPERIENCE

Software Development Intern <i>Delnie Pvt. Ltd.</i>	May 2025 – Present Remote, Bangalore
- Architected and developed FavHiker, a food discovery Android app using Kotlin, Jetpack Compose, and MVVM - Transformed traditional Android Development with XML layout to modern using Jetpack Compose, Clean Architecture and Navigation3 - Reduced crash rates by 25% via performance optimization, code reviews, and debugging - Integrated REST APIs and Firebase backend for real-time data synchronization - Implemented dependency injection with Dagger-Hilt, improving modularity and testability	

PROJECTS

JP Connect – Kotlin, JSoup, RoomDB, Jetpack Compose	2025
- Built a campus utility app for real-time attendance, exam info, CGPA viewer, and more - Used JSoup for web scraping and RoomDB with caching for offline support - Published on Play Store: https://play.google.com/store/apps/details?id=com.random.jconnect&pli=1	
ISF Club Management Application – Kotlin, Firebase, Jetpack Compose, MVVM	2024
- Developed a club management app for 100+ members with real-time data updates - Added features like attendance tracking, event dashboard, inventory control - Integrated chat using Firebase Realtime DB - Designed responsive UI using Material Design 3 - Implemented secure offline caching and notifications	
JUET TimeTable Application – Kotlin, Firebase, SQLite	2024
- Designed an offline-first timetable app used by 1000+ students - Enabled batch/semester-specific filtering and updates - Optimized load time to 2 seconds with minimal battery usage	

TECHNICAL SKILLS

Languages: Python, Java, Kotlin, C++, C, Swift, SQL

Frameworks & Tools: Spring Boot, Jetpack Compose, MVVM, Android SDK, Retrofit, Dagger/Hilt

Dev Tools: Android Studio, Xcode, Git, GitHub, Firebase, Postman, Arduino IDE

Databases: Firebase Realtime DB, PostgreSQL, MySQL, Room DB

Core Competencies: Mobile Development, API Integration, Debugging, Team Collaboration

ACHIEVEMENTS

Leadership: Co-Founder – CODE CONQUERORS, Technical Joint Secretary– IETE Student Forum.

Certifications: Walmart & Goldman Sachs Forage Programs, Android with Kotlin – Udemy, HTML/CSS – Infosys

Other: Developed 5+ production-ready apps and mentored 20+ students.
